• Risk Management
• Critical Writing
• Critical and Creative Thinking
• Practice-led Research in Creative Arts, Media and Design
• InfoScholar

Online access
• Short online courses
• Available 24/7 across Australia
• No assessments and low workload
• Interact online with other students
• Increase your networks

Research skills developed and enhanced
• Paramount for early researchers across Australia
• Addressing issues in research design and methodology
• Enhance your research experience and skills
• Core tools for all research disciplines

Engagement
• Research related skills
• Moderated groups or self-paced, independent engagement
• 2-3 hours per week commitment

The ATN MORE modules are designed to assist students during their research candidature in improving research skills and outcomes.

Who could benefit from MORE?
• **Postgraduate students**
  Support for those wanting to gain an edge.
• **Supervisors**
  Engage individual students and mentor their progress through the modules.
• **Universities**
  Resources and tailored workshops for your postgraduate students.
• **Centres of Excellence, Cooperative Research Centres, Research Institutes**
  Tailored workshops and training programs for your post-docs and early career researchers.

Cost:
• Australian Technology Network (ATN) students - free
• Non-ATN Students: $350 + GST per person per module

Offered collaboratively by the ATN Universities:
ATN LEAP is a collaborative venture across the five ATN universities that form the ATN (Curtin, QUT, RMIT, UniSA, UTS). All share a passion for providing their postgraduate research students with the extra skills that employers now require of graduates. The LEAP program is an award winning postgraduate education course with over 5000 enrolments to date.

Improve your chances of getting that job and become one of these sought after graduates by enrolling today!

Who could benefit from LEAP?
- **Postgraduate students**
  - Added skills for those wanting to gain an edge
- **Universities**
  - Improved graduate skills and employment rates
- **Centres of Excellence, Cooperative Research Centres, Research Institutes**
  - Tailored workshops and training programs for your post-docs and early career researchers

Cost:
- **Australian Technology Network (ATN) students** - free
